

HYBRID

PROIAQ-TUBEHY2

**GENERATES
HYDROGEN PEROXIDE
+ COIL IRRADIATION**

PROIAQ's REVOLUTIONARY NEW product – the **PROIAQ-TUBE HYBRID** is a coil mounted UVV light system that produces safe levels of hydrogen peroxides into the airstream. You get two proven technologies in one complete system working together to produce undeniably fresher air within your home.

GENERATES HYDROGEN PEROXIDE + COIL IRRADIATION

REVOLUTIONARY HYBRID UV LIGHT SYSTEM

The **PROIAQ-TUBE HYBRID** coil mounted UV light system combines two proven air purification technologies to work around the clock transforming ambient air and humidity into safe, trace levels of hydrogen peroxide, all while irradiating the HVAC coil for 24/7 protection.

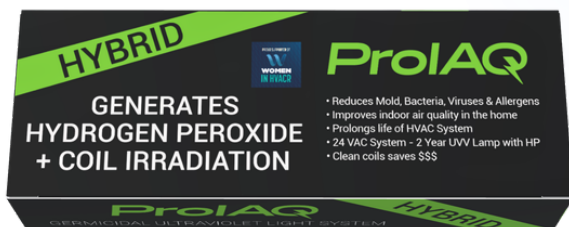

This revolutionary combined process reduces an array of unwanted microscopic contaminants in the air and on all surfaces, resulting in noticeably fresher, cleaner air.

New 90° lamp connector is low-profile for perfect A Plate application.

PROIAQ-TUBEHY2 Shown

FEATURES/BENEFITS

Whole-Home HVAC Integration

Installs directly in horizontal, upflow, or downflow systems to purify your home.

Multi-Spectrum UVV Light

Removes odors, VOCs and airborne contaminants and generates safe, low levels of hydrogen peroxide.

Filter Safe UV Light System

All **PROIAQ-TUBE HYBRID** systems include a lamp shield to deflect the rays of UV light away from your HVAC system's particulate air filter.

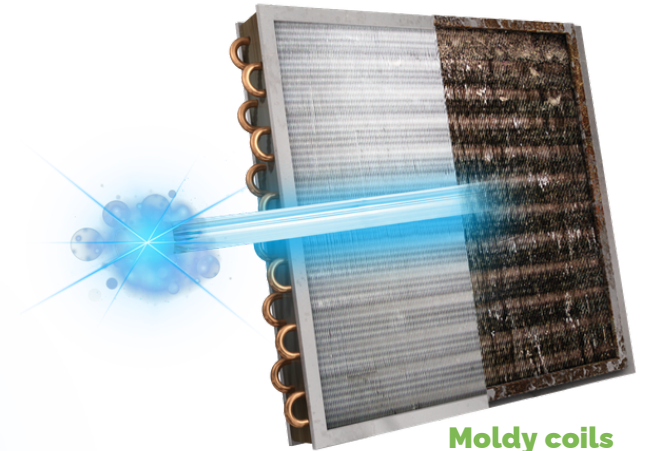

Smart Power System with Clear Indicator Lights

- Blue light indicates the lamp is operating correctly
- Red light indicates lamp is expired and needs to be replaced
- No light indicates there is no power to the system

No guesswork — provides a clear indicator for ballast operation and lamp replacement

CLEANS THE COIL AND DRAIN PAN

Helps keep the HVAC system running efficiently and extend its life.

Clean coils with UV light

Moldy coils without UV light

REDUCES MOLD, BACTERIA, VIRUSES, AND ALLERGENS
