

PROIAQ-PCOPRO

AIR PURIFICATION SYSTEM

Cleaner air. Fresher home.

The **PCOPRO Air Purification System** is our most powerful indoor air and coil treatment system. Built around an advanced cordierite honeycomb core, our next-generation PCO system delivers exceptional performance, and long-lasting durability, and optimized air purification for the entire home.

HIGHLIGHTS

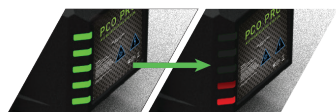

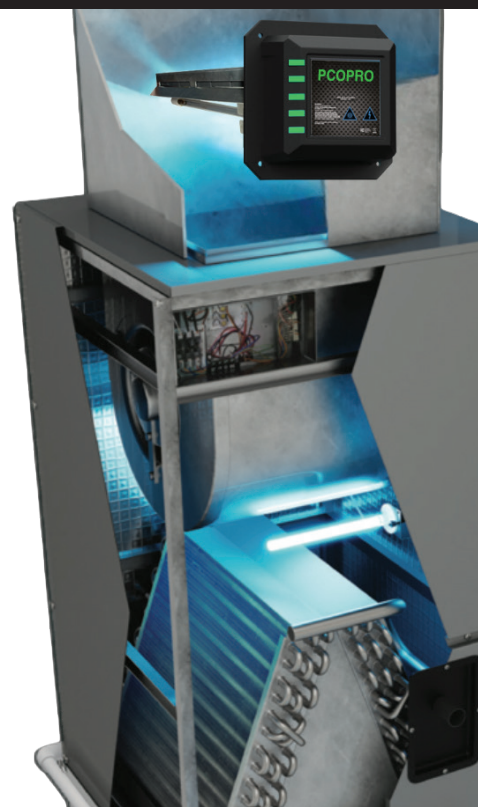

• **Over 30% more effective compared to other In-Duct Air Purification Systems & other Catalyst/Hydro-Peroxide Systems***

- Provides 24/7 reduction of odors, chemicals, mold, bacteria, and viruses
- Ideal for furnaces, air handlers, and heat pumps

*Data on file. Independent laboratory testing demonstrated superior performance compared to other in-duct purification systems in the market.

FEATURES/BENEFITS

Whole-Home HVAC Integration	Installs directly in horizontal, upflow, or downflow systems to purify your home
UVC Germicidal Protection	Neutralizes mold, bacteria, viruses, and allergens as air circulates
Low-Maintenance with Smart Reminder	Long-life lamp (3 years) with a clear light countdown — no guesswork
Photo Catalytic Oxidation (PCO)	Engineered with high-surface area cordierite substrate, maximizing efficiency while maintaining low back pressure and long-term performance.
Safe and Effective	Reduces VOCs & odors from pets, smoke, cooking and biological contaminants

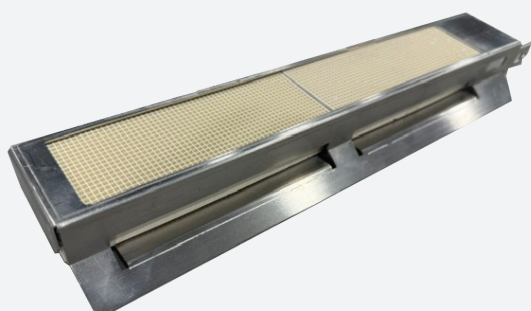

No guesswork — just a clear, visual countdown for peace of mind.

SMART REMINDER

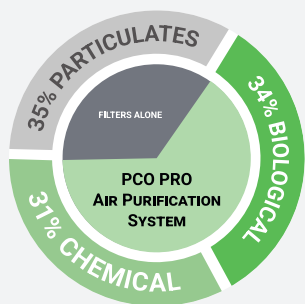

Your Air Purification System tells you exactly when it's time for maintenance.

- Five green status lights gradually turn off from top to bottom as the lamp nears the end of its life.
- When only two lights remain, they turn red, signaling it's time to prepare for a lamp replacement.
- When the final red light flashes, the lamp has diminished and the unit is no longer purifying your air.

HONEYCOMB CORDIERITE SUBSTRATE

- World class advanced catalytic surface technology
- Optimized honeycomb design increases catalyst exposure
- ForEver Cell regenerates with active lamp

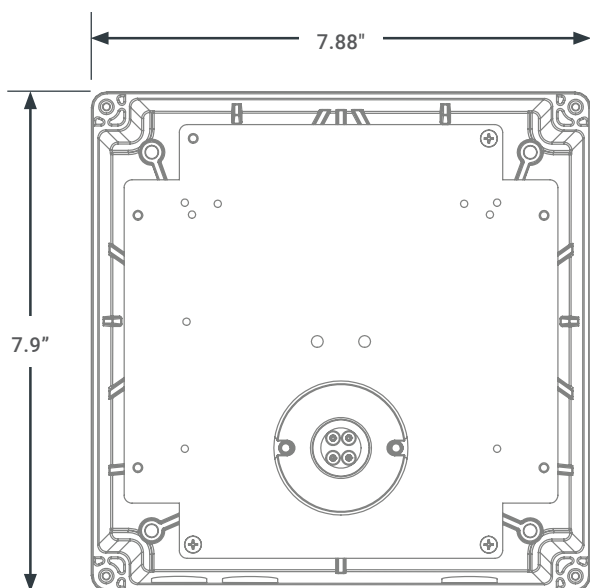

CLEANER AIR BEYOND FILTRATION

Standard filters capture only particulates (about 35% of indoor contaminants). Our **PCOPRO In-Duct Air Purification System** also tackles the other two-thirds:

- **Biological:** Bacteria, viruses, mold, allergens (34%)
- **Chemical:** Odors & VOCs from smoke, pets, cooking, carpets, cleaning products, fuels (31%)

SPECS

PROIAQ-PCOPRO Purification System Specs		
UV Lamp	254 nm UVC, quartz hot filament	
Dimensions	Cell & Lamp: 5.8"W x 3.25"H x 13.125"D Enclosure: 7.9"L x 7.88"W x 2.5"D	
Electrical	24 VAC	
Pressure Drop	<0.01" w.c. @ 400 FPM	
Warranty	Lifetime for all parts except lamp	
Part Numbers		Replacement Lamp
PROIAQ UVC LAMP	3 Year Lamp	PROIAQ-UVL3

Lamps have a 3 year warranty.
*See manual for details
